Polkowice, 26th of July 2024 r.

LETTER OF TESTIMONIAL

We hereby confirm that the company Improvement Factory Sp. z o.o., based in Gdańsk at 1 Kręta Street, has effectively performed a comprehensive analysis of the production processes of backrests and seats at the BROSE-SITECH plant in Głogów. The existing MES system was audited, and a technical-functional concept was developed for a new manufacturing management system. After completing the concept creation project, a new MES standard was implemented in the Brose Sitech plant in Głogów. Subsequently, another project was launched in Brose Sitech Polkowice in compliance with the developed MES standard.

The entrusted work was carried out effectively and without any reservations. Upon the completion of the project, we received complete documentation, delivered on time and in line with our expectations, along with maintenance service in a 16/5 plan, covering the first and second shifts from Monday to Friday, which demonstrates the team's responsibility for the supplied solutions.

We would also like to emphasize the excellent communication with Improvement Factory Sp. z o.o. representatives and the team's professionalism at every stage of our cooperation.

We recommend Improvement Factory Sp. z o.o. as a solid and competent partner who meets high quality standards and has an excellent approach to clients.

Sincerely,

Marta Gaworczak
Division Manager Procurement Brose Sitech sp. z o.o.
